

LedgeWood Pass Weekly League Points Structure
<p>Players earn points in reverse order of finish, with last place receiving 1 point, second-to-last receiving 2 points, and so on up to first place. Additionally, players finishing in the top 10 receive bonus points equal to their place count in the top 10 (10th place gets +1 point, 9th gets +2 points, ..., 1st gets +10 points).</p>
Additional Notes Regarding Points
<ul style="list-style-type: none"> - An ace during a league round is rewarded with 3 bonus points in addition to a share of the ace pot. The ace pot will build all season, and after the championship it will be divided among all players who have hit an ace, with each ace counting as an equal share. So, a player who hits 2 aces during the season will receive 2 shares. To qualify for a share, a player must also qualify for the championship by participating in 8 weeks of the season. - The season is 12 weeks long, and each player's top 9 finishes will be counted.
General Notes
<ul style="list-style-type: none"> - Weekly buy in will be \$20; \$10 for the round fee (discounted from the standard \$12 as a thank you to our league players), \$5 for weekly payouts, \$3 for championship prize pool, \$2 for the ace pot. The \$10 for the round may be paid by any means, but the weekly dues of \$10 must be paid in cash. - The league will be a flex league, running Monday through Sunday. - To qualify for Championship Saturday, players must compete in a minimum of 8 weeks. - A player may score a league round by declaring the round their league round prior to playing. The player must have at least 1 other league member on the card as a witness, even if those players have already logged a league round. In this way, a player may be the only one the card scoring a league round as long as 1 other league player is present as a witness, regardless of whether or not those players are declaring that round as their league round. - The rules for play during league rounds will be the same as in a PDGA sanctioned round, honoring course OB lines as well.

*For every additional player beyond 28, the \$5.00 payout fee from the additional players will be distributed evenly across the top 5 finshers' payouts.											
PROCEDURE FOR TIES											
- Players who shoot the same score in a given week will split the payouts and points for the finishes. For example, 2 players tied for 3rd would split the payout and the points for 3rd and 4th place, but would both be credited with a 3rd place finish as a "T3" for the purposes of tie-breakers in the standings. See the next page for details on this.											

Ledgewood Pass Weekly League Championship Week Structure

- Week 13 is the championship week. To qualify for the championship week a player must log at least 8 league rounds during the season. This is the only week that will not be a flex week, and will take place Saturday, December 6th. Check in at 10:00am tee off at 10:30am. There will be 2 rounds with cards structured in order of current standings going into the day.
- To reflect the number of holes played being doubled, the championship week will be worth double points, and points will be awarded following the same format that they are during the season based on finishing place in a given week. Top 10 bonus points and ace bonus points will also be doubled.
- The weekly buy in for Championship Saturday will be increased from \$20 to \$30. The additional \$10 will double contributions to weekly payouts, the prize pool, and the ace pot, to reflect 2 rounds being played. The round fee of \$10 will not be increased. Payouts will follow the same structure as weekly rounds, with \$10 going toward payouts for the weekly payout, \$6 going towards the Championship Prize Pool, and \$4 going towards the ace pot.
- In the event of a tie in the final championship standings, the first tiebreaker would be the number of 1st place finishes on the season. If this number is also equal, then the next tiebreaker would be the amount of 2nd place finishes. If this still remains a tie, then the tiebreakers change to count the amount of finishes in 3rd place, and so on. This same procedure will be used in weekly updates to the season standings to determine current standings.
- An estimate of the payouts is provided below based on an average of 20 players per week throughout the season.
