

# What is the Innova Replay?

The Innova Replay is a fun disc golf event where players have the option to replay a single throw on every hole. It's encouraged! Participants can explore different throwing techniques, recover from bad throws, and take an ace run. Players may use three of their own discs in addition to the player pack discs. The Players Pack? These aren't your average discs. These are special releases and premium plastics!

## What is in the Players Pack?

The Innova Replay player's pack consists of three premium discs; a Duo Valkyrie, a Halo Champion Fox, and a Proto Glow R-Pro Xero.

Choosing your three personal discs you get to use in the tournament along with the player's pack discs is half the fun. Choose wisely!

## Rules of Play:

1. Use standard PDGA rules, except that each player may replay one throw per hole without penalty.
2. Players may use up to three of their own discs in addition to the discs from the Replay Player Pack.
3. To use a replay, clearly announce it before the next player throws. The replay must be thrown immediately.
4. The player must choose a lie from the replay or original throw.
5. Score the lowest number of throws it takes to complete the hole. Disregard any extra shot that was not utilized to complete the hole.
